

Table of Contents

Introduction.....	6	Creating & Managing Views.....	52
What this course is about.....	7	Creating Views.....	53
Installing & Configuring PostgreSQL.....	8	Setting Rules for Views.....	54
Pre-installation Tasks.....	9	Exercises.....	57
Downloading and Installing PostgreSQL.....	10	Creating & Managing Indexes.....	58
Using Configure Arguments.....	13	Understanding Indexes.....	59
Configuring PostgreSQL to Start on Boot.....	17	PostgreSQL Index Types.....	61
Configuring PostgreSQL for Network Access.....	19	Creating Indexes.....	63
Exercises.....	24	Indexes on Expressions.....	64
Configuring Secure Access		Partial Indexes.....	65
Using OpenSSL.....	25	Exercises.....	66
OpenSSL Benefits.....	26	Transactions and Concurrency.....	67
Enabling SSL.....	27	Transactions.....	68
Issuing Certificates.....	28	Transaction Isolation.....	69
Configuring the postmaster For SSL.....	31	Managing Database Privileges.....	72
Exercises.....	33	PostgreSQL Roles.....	73
Using the psql Client.....	34	User Roles.....	75
Connecting to PostgreSQL.....	35	Altering User Roles.....	76
psql Meta-Commands.....	40	Other Role Properties.....	79
Psql Internal Variables.....	47	Role Examples.....	81
Exercises.....	50	Assigning Users to Roles.....	82

Understanding Role Access.....	83	Managing Schema Views.....	123
Exercises.....	85	Exercises.....	126
Access Control with GRANT.....	86	PostgreSQL Logging.....	127
The GRANT and REVOKE Statements.....	87	Server Log Files.....	128
GRANT Options.....	88	Configuring When to Log Messages.....	131
Exercises.....	92	Configuring What to Log.....	136
PostgreSQL's Data Organization.....	93	Changing Settings.....	140
PostgreSQL Storage.....	94	Exercises.....	141
Managing Table Space Usage.....	96	Backup and Recovery.....	142
PostgreSQL Table Information.....	98	Backup using pg_dump.....	143
PostgreSQL Log Directories.....	100	Using pg_dumpall.....	147
Other Directories.....	101	Restoring Files with pg_restore and psql.....	148
Managing PostgreSQL Clusters.....	104	Performing File-Level Backups.....	149
Exercises.....	106	Exercises.....	150
Creating & Managing		Point in Time Recovery (PITR).....	151
PostgreSQL Tablespaces & Databases.....	107	PostgreSQL Write-Ahead Logs.....	152
PostgreSQL Tablespaces.....	108	Performing a PITR Backup.....	156
Using CREATE TABLESPACE.....	109	Recovering a PITR Backup.....	158
Where Objects Go.....	111	Exercises.....	160
Using CREATE DATABASE.....	113	Writing Triggers &	
Exercises.....	117	Stored Procedures with PL/pgSQL.....	161
PostgreSQL Schemas.....	118	What is PL/pgSQL?.....	162
The Schema.....	119	Creating a PL/pgSQL Procedure.....	164
Managing Schemas.....	121	Variables in Procedures.....	166

Special Data Types.....	167	The Append Operator.....	209
Decision Making.....	169	The Result Operator.....	210
Performing Loop Operations.....	170	The Join Operators.....	211
Returning Values from Functions.....	173	The Group and HashAggregate Operators.....	213
Returning Table Data Sets.....	175	The Subquery Scan and Subplan Operators.....	214
Exercises.....	177	The TID Scan Operator.....	215
The PERFORM and EXECUTE Statements.....	178	The Materialize Operator.....	217
Error Handling.....	180	Setop Operators.....	218
Handling Exceptions.....	182	Improving Query Performance.....	219
Working with Cursors.....	183	Exercises.....	227
The FOUND Variable.....	186	Server Monitoring & Performance Tuning.....	228
Exercises.....	188	Understanding BGWRITER & Shared Buffers.....	229
Triggers in PostgreSQL.....	189	Server Configuration Variables.....	232
Exercises.....	193	Query Optimizer Parameters.....	236
Using the PostgreSQL Query Optimizer.....	194	Gathering Performance Statistics.....	240
Analyzing and Optimizing Queries.....	195	Disk Performance Tuning.....	241
Using EXPLAIN to View Execution Plans.....	197	Configuring & Using The Auto-Vacuum Daemon.....	242
Understanding PostgreSQL's Query Operators.....	200	About Auto-Vacuum.....	243
The "Seq Scan" operator.....	201	Exercises.....	248
The Index Scan Operator.....	203	Pooling with pgpool.....	249
The Sort Operator.....	204	PostgreSQL Connection Pooling.....	250
The Unique Operator.....	206	Downloading & Installing pgpool.....	252
The Limit Operator.....	207	Starting and Stopping pgpool.....	258
The Aggregate Operator.....	208		

Exercises.....	260	Exercises.....	273
Replication with Slony-I.....	261	Full Text Indexing.....	274
Slony Architecture.....	262	Installing tsearch2.....	275
Installing Slony.....	266	Exercises.....	278
Creating The Slonik Script.....	268	Questions?.....	279
Starting Replication.....	270	Where to Get Help.....	280
The Subscription Slonik Script.....	272	The Payroll Database Structure.....	281
