Table of Contents

Introduction 6
What this Course is About 7
PHP Review 9
PHP Basics 10
Working with Arrays 15
Sorting Arrays 18
Variable Scope in PHP 20
Arithmetic Operators 22
Comparison Operators 24
The If and While Constructs 27
Exercises 28
Functions 29
Declaring Functions 31
Passing Data By Reference 33
Including Code in Scripts 35
Exercises 36
Executing OS Commands 37
Shell Execution Best Practices 40
Exercises 42
Working with Web Forms 43
Exercises 47
Perl Regular Expressions 48
Object Oriented Programming and PHP 5 50
PHP 5 Objects 51
Class Inheritance 52
Autoloading Classes 53
Constructors and Destructors 55
Member and Method Visibility 57
The static Keyword 58
Abstract Classes 59
Object Interfaces 60
Overloading 61
Class Members 62
Exercises 63
Debugging PHP Code 64
PHP Error Handling 65
PHP Debugging Tools 66
Creating Conditional Debug Code 68
Suppressing Errors 69
Exercises 70
Managing Web Sessions 71
Using PHP Session Handling 72
Managing Sessions Across Multiple Servers 74
PHP Cookie Handling 76
Exercises 77
Handling Date & Time in PHP 79
Displaying Dates & Times 80
Parsing a Date or Time 82

One Copley Parkway, Suite 210 • Morrisville, NC 27560 • Phone: 919.463.0999 • Fax: 919.386.0158

Generating Relative Times..... 83
Exercises..... 84
Leveraging Existing Code
using PEAR and PECL..... 85
Introduction to PEAR..... 86
Exercises..... 91
Building Client-Server Applications..... 92
Client Server Programming Models..... 93
Understanding XML-RPC..... 97
An XML-RPC Conversation..... 99
Creating an XML-RPC Client..... 101
Encapsulating Values with XML_RPC_Value()..... 103
Retrieving Data from XML_RPC_Value() Objects..... 105
Sending the Message & Receiving the Response..... 107
A Sample XML_RPC Client..... 109
Exercises..... 110
Creating an XML_RPC Server..... 111
A Sample XML_RPC Server..... 113
Exercises..... 116
Installing and Managing PostgreSQL..... 117
About PostgreSQL..... 118
Pre-installation Tasks..... 120
Downloading and Installing PostgreSQL..... 121
Connecting to the Database..... 123
psql Meta-Commands..... 124
Configuring PostgreSQL for Network Access..... 126
Exercises..... 131
Writing Triggers &
Stored Procedures with PL/PHP..... 132
What is PL/pgSQL?..... 133
Installing pl/PHP..... 135
Installing the Language..... 137
Trusted vs. Untrusted Installations..... 139
Exercises..... 140
Understanding pl/PHP Variables..... 141
Creating pl/PHP Functions..... 144
Composite Arguments..... 146
Specifying Return Types..... 147
Returning Arrays..... 148
Returning a Row of Data..... 150
Returning a Set of Data..... 152
Error Messages..... 153
Exercises..... 154
Accessing the Database (SPI)..... 155
SPI Working Example..... 157
Creating pl/PHP Triggers..... 158
pl/PHP Advantages..... 160
Issues/Restrictions..... 161
Exercises..... 163
Exercises..... 164
Using the PostgreSQL Query Optimizer..... 165
Analyzing and Optimizing Queries..... 166

Copying all or part of this manual, or distributing such copies, is strictly prohibited.

Using EXPLAIN to View Execution Plans..... 168
Understanding PostgreSQL's Query Operators..... 170
The “Seq Scan” operator..... 171
The Index Scan Operator..... 173
The Sort Operator..... 174
The Unique Operator..... 175
The Limit Operator..... 176
The Aggregate Operator..... 177
The Append Operator..... 178
The Result Operator..... 179
The Join Operators..... 180
The Group and HashAggregate Operators..... 181
The Subquery Scan and Subplan Operators..... 182
The TID Scan Operator..... 183
The Materialize Operator..... 184
Setop Operators..... 185
Improving Query Performance..... 186
Exercises..... 191
Accessing Databases using PHP..... 192
Using PEAR's MDB2 Class..... 193
Creating a Data Source Name (DSN)..... 195
Setting Connection Options..... 197
Connecting to the Database..... 202
Executing SQL Statements..... 204
Executing Prepared Statements..... 208
DML Prepared Statements..... 209
Prepared SELECT Statements..... 210
Executing Prepared Statements..... 212
Multiple Execution..... 213
Retrieving Information about Queries..... 214
Transactions and Queries..... 215
Managing Sequence Numbers..... 217
Retrieving Data from a Database..... 220
Retrieving Multiple Results..... 222
Single-Step Queries..... 223
Exercises..... 225
PHP Best Practices..... 226
Exercises..... 230
Appendix A – SQL Primer..... 231
About the SELECT Statement..... 232
Selecting Values to Display..... 233
Restricting Selections Using the WHERE Clause..... 237
Using ORDER BY to Sort Query Results..... 240
Limiting a Selection Using LIMIT..... 243
Computing Summary Values..... 245
Using the GROUP BY Clause..... 248
Using the HAVING Clause..... 250
Using DISTINCT to Eliminate Duplicates..... 251
Using UNION to Join SELECT Results..... 252
Appendix B - SQL Expressions and Functions..... 254
What are Expressions and Functions?..... 255
Character Expressions and Functions..... 256

Pattern Matching using LIKE....258
Using IF() Statements....260
Using the IN() Function....261
Comments in SQL Statements....262
Understanding NULL Values....264
Appendix C - Updating Tables Using SQL....266
The INSERT Statement....267
The REPLACE Statement....269
The UPDATE Statement....272
The DELETE and TRUNCATE TABLE Statements....273
Appendix D - Joins....274
SELECT from Multiple Tables....275
The Inner Join....276
Outer Joins....279
