

Table of Contents

Introduction.....	4	Exercises.....	37
What this course is about.....	5	The Problems with Macro Recording.....	38
Navigating Excel's Macro Tools.....	6	Visual Basic for Applications (VBA).....	39
Macro Security.....	7	What is VBA?.....	40
Recording, Storing, and Running a Macro.....	9	Using VBA Help.....	43
The Record Macro Dialog.....	10	Examining Recorded Macro Code.....	44
Macro Playback.....	13	Basics to Review Code.....	45
Creating a Macro Button.....	14	Using Debugging Tools to Review Code.....	46
Creating a Macro Toolbar.....	16	Watching Objects.....	50
Creating a Macro Menu Item.....	17	Conditional Breakpoints.....	51
Assigning Macros to Form Controls.....	18	Exercises.....	52
Other Form Controls.....	20	Fixing Recorded Macros.....	53
Interacting with the User.....	23	Macro Recording Issues.....	54
Exercises.....	24	Removing Extraneous Selects.....	55
Understanding the Visual Basic Editor.....	26	Locating the Last Row in a Range.....	56
The VBE Screen.....	27	Use Variables to Avoid Hard-Coding Values.....	57
The Project Explorer.....	28	Perform Copy and Paste In Single Statements.....	58
The Properties Window.....	30	Using With to Perform Multiple Actions on a Range.....	59
Exercises.....	31	Speeding Up Macros.....	60
Examining Macro Code.....	32	Exercises.....	61
The Programming Window.....	33	Working with Ranges.....	62
Absolute vs Relative References.....	35	Referring to Ranges.....	63

Ranges in Other Sheets.....	66	Creating User Defined Functions.....	81
Relative Ranges.....	67	What are Functions.....	82
Using Cells to Select a Range.....	69	Exercises.....	84
Using Resize to Change a Range Size.....	70	More Exercises.....	85
Exercises.....	71	Case Studies/Function Examples.....	86
Other Range Functions & Properties.....	72	Workbook Properties.....	87
Control Statements & Structures.....	73	Example: Sum Cells Based on Format.....	88
The IF Statement.....	74	Example: Extract Numbers from Text Strings.....	89
The SELECT CASE Statement.....	76	Example: Determine the Day of Week from Date.....	90
For .. Next Loops.....	77	Example: Separate Delimited String.....	91
The For Each loop.....	78	Example: Return the Maximum Value in a Range.....	92
The Do Loop.....	79	Where to Get Help.....	93
Exercises.....	80
