

Table of Contents

Introduction.....	6	Class Inheritance.....	51
What this Course is About.....	7	Autoloading Classes.....	52
PHP Review.....	9	Constructors and Destructors.....	54
PHP Basics.....	10	Member and Method Visibility.....	56
Working with Arrays.....	15	The static Keyword.....	57
Sorting Arrays.....	18	Abstract Classes.....	58
Variable Scope in PHP.....	20	Object Interfaces.....	59
Arithmetic Operators.....	22	Overloading.....	60
Comparison Operators.....	24	Class Members.....	61
The If and While Constructs.....	27	Exercises.....	62
Exercises.....	28	Debugging PHP Code.....	63
Functions.....	29	PHP Error Handling.....	64
Declaring Functions.....	31	PHP Debugging Tools.....	65
Passing Data By Reference.....	33	Creating Conditional Debug Code.....	68
Including Code in Scripts.....	35	Suppressing Errors.....	69
Exercises.....	36	Exercises.....	70
Executing OS Commands.....	37	Managing Web Sessions.....	71
Shell Execution Best Practices.....	40	Using PHP Session Handling.....	72
Exercises.....	42	Managing Sessions Across Multiple Servers.....	74
Working with Web Forms.....	43	PHP Cookie Handling.....	76
Exercises.....	46	Exercises.....	77
Perl Regular Expressions.....	47	Handling Date & Time in PHP.....	79
Object Oriented Programming and PHP 5.....	49	Displaying Dates & Times.....	80
PHP 5 Objects.....	50	Parsing a Date or Time.....	82

One Copley Parkway, Suite 210 • Morrisville, NC 27560 • Phone: 919.463.0999 • Fax: 919.386.0158

Generating Relative Times.....	83	MySQL Server Security.....	140
Exercises.....	84	MySQL Security.....	141
Leveraging Existing Code		The MySQL Privilege System.....	144
using PEAR and PECL.....	85	MySQL Default Users.....	147
Introduction to PEAR.....	86	GRANT and REVOKE Statements.....	148
Exercises.....	91	Adding Users to MySQL.....	154
Building Client-Server Applications.....	92	Changing User Passwords.....	157
Client Server Programming Models.....	93	Client Access Control.....	158
Understanding XML-RPC.....	97	Disabling Client Access Control.....	159
An XML-RPC Conversation.....	99	Exercises.....	160
Creating an XML-RPC Client.....	101	Using MySQL Clients.....	161
Encapsulating Values with XML_RPC_Value().....	103	Client Overview.....	162
Retrieving Data from XML_RPC_Value() Objects.....	105	Using Command-Line Clients.....	164
Sending the Message & Receiving the Response.....	107	Specifying Connection Parameters.....	166
A Sample XML_RPC Client.....	109	Connection Examples.....	171
Exercises.....	110	Using Client Option files.....	173
Creating an XML_RPC Server.....	111	Using User Variables.....	174
A Sample XML_RPC Server.....	114	Exercises.....	175
Exercises.....	117	MySQL Stored Procedures.....	176
Installing and Managing MySQL.....	118	What are Stored Procedures?.....	177
MySQL Installation for Windows.....	119	Stored Procedures & Functions.....	179
The MySQL Server Instance Configuration Wizard.....	121	Creating Stored Procedures.....	181
Starting and Stopping MySQL under Windows.....	133	Creating Functions.....	183
MySQL Installation for Linux/Unix.....	134	Stored Procedure & Function Characteristics.....	185
Starting and Stopping the MySQL Server.....	137	Execution Blocks in Stored Procedures & Functions.....	187
Exercises.....	139	The DECLARE Statement.....	188

Working with Variables.....	189	Exercises.....	230
MySQL Error Codes.....	190	Accessing Databases using PHP.....	232
Conditions and Handlers.....	191	Using ADO DB.....	233
Exit Handlers.....	192	Why use ADODB?.....	234
Continue Handlers.....	193	Installing ADODB.....	236
Undo Handlers.....	194	Specifying Connection Properties.....	237
The IF Statement.....	195	Constructing Queries.....	239
The CASE Statement.....	196	Executing Queries.....	241
The LOOP, WHILE, and REPEAT Statements.....	197	Working with SELECT Results.....	244
Modifying Stored Procedures and Functions.....	201	Errors Returned from Queries.....	248
Exercises.....	203	ADODB Performance Notes.....	249
Cursors in MySQL.....	204	Debugging Queries.....	251
Exercises.....	206	Single-Step Queries.....	253
Triggers in MySQL.....	207	Exercises.....	255
Creating MySQL Triggers.....	209	PHP Best Practices.....	256
Exercises.....	210	Exercises.....	260
Using the MySQL Query Optimizer.....	211	Appendix A – SQL Primer.....	261
Index Types.....	212	About the SELECT Statement.....	262
The FULLTEXT Index.....	216	Selecting Values to Display.....	263
Index Usage.....	217	Restricting Selections Using the WHERE Clause.....	267
Analyzing Queries.....	219	Using ORDER BY to Sort Query Results.....	270
Using EXPLAIN to Analyze Queries.....	221	Limiting a Selection Using LIMIT.....	273
Optimizing Queries.....	224	Computing Summary Values.....	275
Optimizing Updates.....	226	Using the GROUP BY Clause.....	278
MySQL Prepared Statements.....	227	Using the HAVING Clause.....	280
Using Summary Tables.....	229	Using DISTINCT to Eliminate Duplicates.....	281

Using UNION to Join SELECT Results.....	282	Appendix C - Updating Tables Using SQL.....	296
Appendix B - SQL Expressions and Functions.....	284	The INSERT Statement.....	297
What are Expressions and Functions?.....	285	The REPLACE Statement.....	299
Character Expressions and Functions.....	286	The UPDATE Statement.....	302
Pattern Matching using LIKE.....	288	The DELETE and TRUNCATE TABLE Statements.....	303
Using IF() Statements.....	290	Appendix D - Joins.....	304
Using the IN() Function.....	291	SELECT from Multiple Tables.....	305
Comments in SQL Statements.....	292	The Inner Join.....	306
Understanding NULL Values.....	294	Outer Joins.....	309
