

Table of Contents

Introduction.....	5	Exercises.....	54
About This Course.....	6	Providing Web Services with MapServer.....	55
Deploying UMN MapServer.....	7	MapServer as a WFS Provider.....	56
About MapServer.....	8	WEB Level Meta-Data.....	57
Creating Map files.....	9	WEB Meta-Data Example.....	59
Map File Format.....	10	Setting Layer Meta-Data.....	61
Setting Web Display Parameters.....	14	Layer Meta-Data Example.....	63
Determining Map Information.....	16	Testing your WFS Service.....	65
General MAP File Format.....	18	Exercises.....	66
Exercises.....	19	MapServer as a WMS Provider.....	67
Generating & Displaying Basic Map Data.....	20	Configuring MapServer MAP Section for WMS.....	68
Defining Map Layers.....	21	Sample MAP Layer Meta-Data.....	70
Layer Example.....	29	Setting Layer Level Meta Data.....	72
Choosing Output Image Formats.....	30	Testing your WMS Service.....	74
Filtering Layer Data.....	32	Exercises.....	75
Filter Example.....	34	MapServer as a WCS Provider.....	76
Data Source Connections.....	35	Interactive Maps with GeoMoose.....	77
Using a Web Map Service Server (WMS).....	37	About GeoMoose.....	78
Using a Web Feature Service (WFS).....	39	Objectives.....	79
Projections.....	41	Initial Setup.....	80
Sample MAP File with Layer.....	43	Configuring settings.ini.....	82
Notes about Layers.....	45	Exercises.....	85
Exercises.....	48	Configuring the Map Book.....	86
Sample Map.....	50	The <configuration> Section.....	88
Adding Scale Information.....	51	Defining Projections.....	98

Exercises.....	99	Adding Bing (VirtualEarth) Layers.....	142
The <map-source> Section.....	100	Exercises.....	144
Adding mapserver Layers.....	102	Layer Subclassing.....	145
Adding WMS Layers.....	104	Specifying Class Information.....	146
Reference Maps.....	106	Performing Queries.....	150
Exercises.....	107	Feature Sizing.....	152
Configuring the GeoMoose Catalog.....	108	Limiting Displayed Features.....	154
About the Catalog.....	109	Performing Joins (SDE, Oracle Spatial, PostGIS).....	155
Creating the Catalog.....	110	Layer Display Settings.....	157
Exercises.....	113	Styles.....	158
Configuring GeoMoose Services.....	114	Using True Type Fonts.....	159
About Services.....	115	Labels.....	161
Adding A Service.....	116	Labels and Annotation.....	163
Configuring <step>s.....	117	Exercises.....	164
Spatial Steps.....	118	Adding Raster Layers.....	165
Creating a Service with a Spatial Step.....	119	Symbols & Legends.....	167
Creating Input Fields.....	122	Symbols.....	168
Server Communication Protocol.....	125	Adding Symbols.....	170
Attaching Services to the Toolbar.....	127	Using True Type Symbols.....	172
Creating a Tool from a Service.....	128	Adding Symbols to Classes.....	174
Internal Tools.....	131	Generating the Legend.....	175
Setting Up A Drawer.....	133	Image/Tile Caching.....	177
Applying Styles to Tools.....	134	Tile Caching.....	178
Adding Third Party Background Layers.....	136	UMN MapServer CGI Mode.....	179
Adding OpenStreetMap Layers.....	137	About CGI.....	180
Adding google Layers.....	138	MapServer Modes.....	182
Adding Yahoo! Layers.....	140	MapServer Common CGI Parameters.....	185

Loading Maps with PHP/MapScript.....	188	PHP/MapScript Web Interaction.....	230
About PHP/MapScript.....	189	Understanding Image Maps.....	231
Creating the MAP Object.....	190	Saving User Input.....	234
Generating a Basic Map.....	192	Creating the DBF File.....	237
Exercises.....	194	Adding Data to the Shape and DBF Files.....	239
Understanding the Map Object.....	195	Reading from the Shape and DBF File.....	241
Retrieving Map Information (MapObj Members).....	196	Creating a Tile Cache with PHP/MapScript.....	243
Manipulating the Map Object.....	200	Exercises.....	244
Basic Map Object Methods.....	201	Click and Zoom.....	245
Working with Images.....	208	Exercises.....	247
Exercises.....	210	Other Zoom Methods.....	248
Basic Layer Operations.....	211	Exercises.....	250
Working with Layers.....	212	Performing Queries with PHP/MapScript.....	251
Managing Layer Drawing & Order.....	214	MapServer Queries.....	252
Retrieving Layer Features.....	216	Retrieving Query Results.....	254
Adding Features with PHP/MapScript.....	218	Populating Templates.....	256
Adding Layers.....	219	Other Query Methods.....	257
Adding Geometries to a Layer.....	221	Exercises.....	258
Adding Classes to Layers.....	224	MapServer Documentation.....	259
Managing Styles.....	227	Questions?.....	260
Managing Labels.....	229	Where to Find Answers.....	261
