Table of Contents

Introduction.....	6	Configuring the postmaster For SSL.....	38
What this course is about.....	7	Exercises.....	40
Installing & Configuring PostgreSQL.....	8	Using the psql Client.....	42
Pre-installation Tasks.....	9	Connecting to PostgreSQL.....	43
Downloading & Installing PostgreSQL Packages.....	10	psql Meta-Commands.....	49
Red Hat based distributions.....	11	Psql Internal Variables.....	56
Debian based distributions.....	13	Exercises.....	59
Initializing PostgreSQL Clusters.....	14	Creating & Managing Views.....	62
Debian-Based Distribution Notes.....	15	Creating Views.....	63
RHEL-based Distribution Notes.....	17	Setting Rules for Views.....	65
Common Management Commands.....	19	Exercises.....	68
Configuring PostgreSQL to Start on Boot.....	20	Creating & Managing Indexes.....	70
Managing Server Configuration with ALTER SYSTEM.....	21	Understanding Indexes.....	71
Configuring PostgreSQL for Network Access.....	22	PostgreSQL Index Types.....	73
Controlling Client Access.....	24	Creating Indexes.....	75
Exercises.....	29	Indexes on Expressions.....	77
Configuring Secure Access Using OpenSSL.....	32	Partial Indexes.....	78
OpenSSL Benefits.....	33	Exercises.....	79
Enabling SSL.....	34	Transactions and Concurrency.....	81
Issuing Certificates.....	35	Transactions.....	82

Transaction Isolation.....	83	Other Directories.....	123
Managing Database Privileges.....	86	Managing PostgreSQL Clusters.....	127
PostgreSQL Roles.....	87	Exercises.....	129
User Roles.....	89	Creating & Managing PostgreSQL Clusters, Tablespaces & Databases.....	132
Altering User Roles.....	90	PostgreSQL Tablespaces.....	133
Other Role Properties.....	93	Using CREATE TABLESPACE.....	134
Role Examples.....	95	Where Objects Go.....	136
Assigning Users to Roles.....	96	Using CREATE DATABASE.....	138
Understanding Role Access.....	97	Exercises.....	142
Exercises.....	99	PostgreSQL Schemas.....	144
Access Control with GRANT.....	101	The Schema.....	145
The GRANT and REVOKE Statements.....	102	Managing Schemas.....	147
GRANT Options.....	103	Managing Schema Views.....	149
Granting Column Level Privileges.....	106	Exercises.....	152
Default Privileges.....	107	PostgreSQL Logging.....	155
Global Grants on a Schema.....	110	Server Log Files.....	156
Exercises.....	111	Using CSV-Format Log Output.....	159
PostgreSQL's Data Organization.....	113	Configuring When to Log Messages.....	161
PostgreSQL Storage.....	114	Configuring What to Log.....	166
Managing Table Space Usage.....	118	Changing Settings.....	171
PostgreSQL Table Information.....	120	Exercises.....	173
PostgreSQL Log Directories.....	122		

Backup and Recovery.....	175	PostgreSQL Visibility Maps.....	226
Backup using pg_dump.....	176	Using The Auto-Vacuum Daemon.....	227
Using pg_dumpall.....	181	About Auto-Vacuum.....	228
Restoring Files with pg_restore and psql.....	183	Exercises.....	233
Performing File-Level Backups.....	185	Improving Network Performance with PgBouncer.....	234
Using pg_basebackup.....	186	About PgBouncer.....	235
Exercises.....	189	Pooling Modes.....	236
Upgrading PostgreSQL.....	191	Downloading & Installing PgBouncer.....	237
Upgrade Methods.....	192	Configuring PgBouncer.....	238
Using the pg_upgrade Module.....	194	Configuration Database Parameters.....	239
Continuous Archiving and Point in Time Recovery (PITR).....	197	Configuring PgBouncer General Parameters.....	242
PostgreSQL Write-Ahead Logs.....	198	Setting Logging Parameters.....	245
Making a Base Backup.....	202	Other Configuration Parameters.....	246
Recovery Using A Continuous Archive Backup.....	204	Creating an Authorization File.....	248
Exercises.....	208	Launching & Managing PgBouncer.....	249
Server Monitoring & Performance Tuning.....	210	Exercises.....	250
Understanding BGWRITER & Shared Buffers.....	211	Enabling Hot Standby (Replication).....	252
Server Configuration Variables.....	214	About Hot Standby.....	253
Query Optimizer Parameters.....	217	Configuring Recovery.conf for Hot Standby.....	254
Gathering Performance Statistics.....	221	Allowing Connections from Standby Nodes.....	256
Disk Performance Tuning.....	223	Enabling Hot Standby Mode on the Secondary.....	257
Server Information.....	224	Starting the Secondary Node.....	258

Configuring Standby Limits.....	259	Monitoring Replication.....	269
Enabling Synchronous Replication.....	260	Using pg_prewarm.....	270
Replication Tuning Settings.....	262	Questions?.....	271
About the WAL Sender.....	266	Where to Get Help.....	272
Other Hot Standby Notes.....	268	The Payroll Database Structure.....	273
